Proposal Title *

Does this proposal include the purchase of an instrument?

One-sentence Proposal Summary (50 words) *

Research Focus Area - Check all that apply *

Statement of Impact needs to describe a sustainability challenge that the proposal addresses, a description of how the research might impact that challenge, and an explanation of how the research outcomes might be translated to realize that impact. Specifically, the application should identify a relevant metric for global sustainability (e.g., Gt CO₂ emission reduction, cubic feet of water purified) that provides a quantitative analysis of the project's potential for impact over some specified time frame (500 words). *

Does the proposal leverage unique internal or external resources, or time-sensitive opportunities? *

If Yes, please describe below (200 words)

Briefly describe below research team qualifications to carry out the proposed work (500 words).

If selected, would you consider including a Summer WAVE fellow as part of your research team?

Budget Justification (500 words) *

Does the proposal leverage other financial resources? *

If yes, please provide brief details below and include financial information in the RSI Proposal Budget Worksheet (500 words).
